Good Morning Quinn

Thanks for the workplan for today. I noticed that you just made it. Whew.. It should be very good for you. Please remind me when I need to read anything on treated seeds. Enjoy your day and weekend as well.

Subject: Plan for the day

Good Morning Linda,

I hope you are doing well today. I sent that email over about LLMP just in the nick of time because soon after the spaces were all full. Today I will put in the additional information that is needed to start my entry into the program. I will also be working on clomazone labels and getting those out to the registrant. I will also be reviewing a document from Dave Jones regarding EFED modeling for notes for next weeks meeting (he put together a comprehensive paper on how the modeling works and made it (mostly) understandable for PRD which is helpful to read through. I hope you have a good day and a good weekend.

Best,
Quinn
